ACN 060 731 777

Issued: FEB 2012

MATERIAL SAFETY DATA SHEET

I. IDENTIFICATION

PAGE 1 OF 3

PRODUCT NAME:	XSTINKT
OTHER NAMES:	ODOUR NEUTRALISING COMPOUND
PRODUCT CODE:	
WORKSAFE HAZARD ASSESSMENT:	NOT CONSIDERED HAZARDOUS
UN NUMBER:	None
DANGEROUS GOODS CLASS:	None HAZCHEM None
SUBSIDIARY RISK CLASS:	None
PACKAGING GROUP:	None EPG None
POISON SCHEDULE:	Not scheduled
PRODUCT TYPE:	Water emulsion of organic material
USES:	Odour neutraliser for removing odour from carpets, concrete pens etc.

PHYSICAL APPEARANCE & PROPERTIES:

APPEARANCE AND ODOUR:	Clear straw coloured liquid. Characteristic apple odour.
MELTING/SOFTENING POINT:	Melts at about 0°C
BOILING POINT AND VAPOUR PRESSURE:	Boils at about 100°C, 100kPa
VOLATILE MATERIALS:	Water component
FLASHPOINT:	Not flammable
SPECIFIC GRAVITY:	Approx. 1.0
SOLUBILITY IN WATER:	Completely miscible
CORROSIVENESS:	Not corrosive

INGREDIENTS:

WORKSAFE EXPOSURE LIMITS

CHEMICAL ENTITY	CAS NO.	PROPORTION	TWA mg/ cu.m.	STEL mg/cu.m.
Terpene mixture	not set	>10%	not set	not set
Emulsifier and surfactants	9005-64-5	>20%	not set	not set
Water	7732-18-5	to 100%	not set	not set

This is a commercial product, and the exact ratio of components may vary. Trace quantities of impurities are also likely.

II. HEALTH HAZARD INFORMATION

HEALTH EFFECTS: No specific data is available for chronic exposure symptoms. The materials in this product are not considered to be carcinogenic by the Worksafe Australia lists (October 1991) the US National Toxicology Program, the International Agency for Research on Cancer or the US Occupational Safety and Health Administration.

ACUTE

SWALLOWED: Data suggests that the product should be considered as slightly toxic by ingestion.

EYE: Data suggests that this product should be classified as a moderate eye irritant.

SKIN: Data suggests that product presents low hazard via skin contact.

INHALATION: Inhalation may cause irritation of the nose and throat and cause coughing and chest discomfort if used in poorly ventilated areas.

PRIMARY route of exposure is inhalation and skin and eye contact.

FIRST AID

SWALLOWED: If swallowed, do **NOT** induce vomiting. Rinse mouth with water and give a glass of water to drink. If poisoning occurs, contact a doctor or the Poisons Information Centre.

EYES: In case of eye contact, hold eyes open and flood with water for at least 15 minutes, ensuring irrigation under the eyelids. Do not attempt to remove contact lenses unless trained. See a doctor.

SKIN: In case of skin contact, remove contaminated clothing and wash skin thoroughly.

INHALED: If fumes or combustion products are inhaled, remove to fresh air. If breathing is shallow or has stopped, ensure clear airway and apply resuscitation or oxygen if available. Transport to hospital or doctor immediately.

EYE wash stations should be available whenever chemical products are used.

ADVICE TO DOCTOR: Treat symptomatically. Note the nature of this product.

III. PRECAUTIONS FOR USE

EXPOSURE STANDARDS: A time weighted average (TWA) concentration for an 8 hour day, and 5 day week has not been established by Worksafe Australia for any of the ingredients in this product. There is a blanket limit of 10mg for dusts and mists when limits have not otherwise been established. The nature of this product makes it unlikely that this level will be approached in normal use.

ENGINEERING CONTROLS: In industrial situations, ventilation must be adequate to ensure that the working environment is below the T.L.V. value by using a local exhaust system.

PERSONAL PROTECTION: Refer "Directions for Use" on container. **Respiratory Protection** is not generally necessary when using this material. **Protective Gloves** are not generally necessary, but desirable. **Eye Protection** is advisable if there is a chance of splashing.

FLAMMABILITY: Not flammable.

Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

IV. SAFE HANDLING INFORMATION

STORAGE AND TRANSPORT: No special transport requirements. This product does not have a UN Classification. Containers should be kept closed in order to minimise contamination. Keep from extreme heat and open flames, and make sure the material does not come into contact with other chemicals.

SPILLS AND DISPOSAL: In the event of a major spill, clear area of personnel. Alert fire brigade and advise of nature and location of spill. Wear protective clothing. Prevent spillage from entering drains and water courses. Stop leak if safe to do so, and contain spill. Absorb onto vermiculite, sand, sawdust or other absorbent material. Sweep up and shovel or collect recoverable product into labelled containers for recycling or salvage. Recycle containers where possible. After spills, wash area, preventing runoff from entering drains. If material enters drains, advise emergency services. This material may be suitable for landfill. Dispose of only in compliance with local, state and federal regulations.

FIRE/EXPLOSION HAZARD: There is no explosion hazard from this material under normal circumstances.

Decomposition Products: Carbon dioxide, carbon monoxide, water.

Materials to Avoid: Strong acids, strong alkalis, strong oxidising agents.

V. OTHER INFORMATION:

This Material Safety Data Sheet is prepared in accord with the Worksafe Australia document "National Code of Practice for the Preparation of Material Safety Data Sheets", 1994.

CONTACT POINTS: Town & Country Chemicals Pty Ltd on (02) 43883711,
FAX (02) 43893343

Ask for The Manager

Police and Fire Brigade: Dial 000
If ineffective: Poisons Information Centre on 131126

Please read all labels carefully before using this product.
